

A Women's Power

By Jermaine Collins

Power is the light.
The light in you, that will never go out.
Keeps a man strong and focused.
As like a women, on her feet, and standing tall.
So TALL that she can help you when you fall. And can
fix you mistakes.
A Woman's Power, everyone needs.
So many people take for granted.
No matter how many times you miss-up, she is still
ready to ride.
And be by you side.
A Women's Power
Equals a mother's love. Equals one true love one true
love equals unconditional strength and commitment.
And that is a women power. True Power!!
